## Successes

Since its inaugural meeting in 1969, The Glebe Society has achieved significant successes by lobbying, conducting local campaigns, and collaborating with council and other bodies. Through such local community action, considerable outcomes have been achieved, including:

### 1974:

- Listing of Glebe as a conservation area by the National Trust;

### 1970s:

- Abandonment of the NSW Government proposal for expressways which would have cut through the suburb and resulted in the demolition of Lyndhurst (1837, architect John Verge);
- Preservation of the Glebe Estate, an area of mid-19th century houses which has since been refurbished as public housing;

### 1980s:

- Acquisition and extension of Benledi (1875) for use as the Glebe library;
- Development of the concept of a light rail link through Glebe utilising a former railway goods line;

### 1970s-1980s:

- Gradual acquisition of major waterfront parks – Bicentennial park and Blackwattle Bay park;

### 1970s to present:

- Extension of the foreshore walk and cycleway from Glebe Point Road to Sydney Secondary College on Blackwattle Bay;

### 1970s-2005:

- Restoration of Bellevue (c1883, architect Ambrose Thornley Jnr) which had fallen into disrepair;

### 2000 to present:

- Restoration and interpretation of the incinerator (1932, architect Walter Burley Griffin) on Blackwattle Bay; redevelopment of Foley Park in Glebe's central historic precinct.
